

At this time we would like to introduce Ethan to you. He is a new student who joined us during our virtual programs. Here are a few of the comments made by Ethan's parents while the program was running.....

*"Someone is super excited to be starting his Conductive Education Program on Monday!! Here's hoping it's very beneficial for him and he enjoys it!!"*

*"This boy never seems to amaze us!! 5 days of Conductive Education and the gains he's showing are amazing!!"*

*"This boy is making leaps and bounds with Conductive Education!! He does it with his instructor Monday, Wednesdays and Friday's but Tuesday's and Thursday's Ron and I are still doing his stretches and working even more with him!! The improvements are way beyond what we expected "*

*"Conductive Education has definitely done wonders for this boy!!! He's been working so hard and this morning while we were waiting for Ron to do a couple of things before going to the living room, he decided he was going to get in this position all by himself!!! Here's to more challenges and overcoming more obstacles"*

*"Ethan officially took his first steps tonight on his own with Ron and I holding his hands during family photos!! To say we're excited is an understatement We can't wait to do it again and get him on video so you can all see how amazing the conductive education has been!!!"*

In asking for feedback from parents after the program was finished this is what Ethan's parents had to say.....

*This was Ethan's very first year doing Conductive Education and we are truly amazed at the progress we have seen from him. Originally we weren't sure if we were making the right decision signing him up but the gains we have seen from him since August are amazing! He can now get up on all 4's and do a rocking position as well as walk with someone holding his hands and under his armpits. We were always told Ethan would never be able to walk but he's proving otherwise and we believe it's from the amazing work of the conductive education program. Some days were a challenge as he has a tracheostomy but Benji worked with us and came up with a strategy that would work for Ethan! We can't wait to join next year and see what the future holds!!*
